

## DEMO DESCRIPTIONS - SATURDAY, OCTOBER 28TH

### **Repworks: How to Employ Dortronic Door Interlock Controllers**

A growing customer requirement...provide a door interlock control system.

Many facilities need to be sure that their access control system has the ability to ensure that certain areas are not accessed simultaneously from multiple doors.

Dortronic is the leading supplier of door control systems from simple 2 door mantraps all the way up to facilities requiring 6 or more doors controlled simultaneously.

This session will show you how easy it is to have a system engineered to meet a wide variety of your customers' door control needs.

### **Allegion: Schlage Everest E29 SL Key System**

Allegion's E29 SL Key System includes keyways that are offered for conventional cylinders as well as both small and large format interchangeable cores. E29SL allows great flexibility and expansion capability for locksmiths and their end users. Schlage's newest offering, Schlage keyways in competitive large format Interchangeable Cores will also be discussed.
